

# HOW TO PLAY

# Hundred Acre Wood

## OVERVIEW

Fluxx games are all about change. Beginning with just a couple of simple rules, the game gradually becomes more complex as new rules are added. At first there will be no way to win—that's what Goal cards are for. Each Goal is different, but they all require you to collect cards called Keepers. As soon as your Keepers match the current Goal, you win!

### Single Player Rules:

## SETUP

Place the Basic Rules card in the center of the table.

Shuffle the deck and deal three cards to each player.

Establish the draw pile by placing the remainder of the deck face down where everyone can reach it.

## GOING FIRST

The dealer goes first. Or choose a player at random.

Play proceeds clockwise.

## Exec Summary

- Fluxx is a game about constant change.
- Begin by following the Basic Rules.
- Each player starts with a hand of 3 cards.
- On your turn, draw 1 card, play 1 card.
- New Rules take effect as soon as you play them.
- Collect Keepers to match the Goal and you win!

## TYPES OF CARDS

Each turn, you will Draw at least one card, add it to your hand, and Play at least one card. Here's how each type of card is used in the game:

**New Rules** change the way the game works. When a New Rule is played, you must adapt to it right away.

When a New Rule contradicts a card already in play, the old rule is discarded.

**NEW RULE**

**NEW RULE**

New rules take effect immediately.

To play one, place it face up in the center of the table.

**KEEPER**

**KEEPER**

To play a Keeper, place it face up on the table in front of you.

**Keepers** are what you need in order to win. Keep them in front of you after playing.

**Goals** indicate which Keepers you currently need in order to win.

**GOAL**

**GOAL**

Goals are played face up in the center of the table.

Discard the previous Goal, if any.

**ACTION**

**ACTION**

To play an Action card, do whatever it says, then place it on the discard pile.

**Actions** are single-use cards. Follow the instructions on the card, then discard it.

## Turn Sequence

- 1) Draw the number of cards currently required.
- 2) Play the number of cards currently required.
- 3) Discard to comply with any Limit rules in play.

Optional actions allowed by New Rules, Keepers, etc., may be performed at any point during this sequence.

All cards are always playable, even if they have no effect. If you aren't sure how a card works, try reading the full text aloud as you play it.

**Limits:** At first there will be no limitations on the number of cards you can hold in your hand or Keepers you have in play—but Hand and Keeper Limit cards will create such restrictions. These rules only affect you when it's NOT your turn, so you can ignore them until your turn ends. When someone plays a new Limit rule, the other players must immediately comply with the new restriction, discarding cards of their choice as needed.

## HOW TO WIN

The game continues until someone meets the conditions of the current Goal. That player wins instantly, no matter whose turn it is! (If a tie, the game continues until one winner emerges.)

## Sample Game (in progress)

New Rules that override the Basic Rules are placed overlapping the part they supersede.

Other New Rules are placed in the center.

Goals also go in the middle. They are shared by all players.

Keepers are placed in front of their owners.

**PLAYER 2**

**ACTION**

After following an Action card's instructions, place it onto the discard pile.

## OTHER TYPES OF CARDS

**Meta Rules:** This type of card goes into play at the start of the game and stays throughout. (The Basic Rules are a Meta Rule.)

## \* META RULE

**META RULE**  
A Meta Rule is an extra rule that stays in play for the entire game.

## EXAMPLES

Here are a few examples to show how various cards interact:

After drawing one card, you play the **Draw 3** New Rule. Now the rules require you to draw three cards on each turn, but since you only took one card before, you must immediately draw two more cards. The next player draws three cards for their turn. They play **Draw 2** which changes the rules again, but they draw no more cards, having already gotten (at least) two cards this turn. Since **Draw 2** contradicts **Draw 3**, the **Draw 3** rule is discarded.

If you play the Action called **Draw 2 and Use 'Em**, you will immediately draw two cards and play them both. If one of those cards is **Draw 3, Play 2 of Them** you would keep going, drawing three more cards, playing two cards, and discarding the third. All of this activity would be considered the playing of just one card when counting the number of plays on your turn.

Suppose your hand contains a Keeper and a Goal that requires it. Which should you play? You might think it's a tossup, since you don't have the other Keeper you need. However, you should definitely play the Keeper first. If you play the Goal, it will very likely be replaced by another long before you find the second Keeper.

## OTHER NOTES

**Regarding Discarding:** You cannot simply discard unwanted cards. You can only discard if compelled to by a Hand Limit or similar compulsion. (Yes, this means you could end up being forced to play a card that makes someone else win.)

**Reshuffling:** If the Draw pile runs out, shuffle the Discard pile, turn it over to make a new Draw pile, and keep playing.

**Cards in Play:** Whenever something mentions a card "in play," this refers to a card that is face up on the table, but not in the discard pile. Keepers must be in play for you to meet a Goal that requires them.

**Free Actions:** Some cards allow for bonus actions which can be taken at any time during your turn. Since they don't count as plays, they are called Free Actions.

**Jumping In:** New players may join at any time by being dealt a hand of three cards.

**Dropping Out:** Players can exit the game at any time. Just discard your hand and all of the cards you have in play.

## SOLO FLUXX

This is a summary of the solitaire rules. For a longer version, please visit [looneylabs.com/solo-fluxx](http://looneylabs.com/solo-fluxx).

### SETUP

Before playing Solo Fluxx, remove all cards that won't apply with one player. You can play solo with any version of Fluxx, but each has its own list of cards to set aside. For this version, the 12 cards to remove are:

- Plush Players
- Buddy Bonus
- Sticky Situation
- Plushie Power
- Shuffle Hands
- Everybody Gets 1
- Exchange Keepers
- Steal a Keeper
- Share the Wealth
- Random Tax
- Trade Hands
- Use What You Take

### START

- Place the Basic Rules on the table, to one side.
- Divide the rest of the cards into New Rules (the Rules Deck) and non-Rules (the Main Deck).
- Shuffle the Rules Deck. Place it with the Basic Rules.
- Shuffle the Main Deck and place it on the other side.
- Draw 3 cards from the Main Deck.
- You take the first turn.

### PLAY

- Toggle between taking a turn and adding a New Rule.
- During your turn, Draw the number of cards indicated, then Play the number of cards required.
- After your turn ends, draw from the Rules deck and place the New Rule in the appropriate spot, discarding any card that is already there.
- Comply with any new Limit before taking another turn.

### END

- Any time you meet the conditions of the current Goal, move that Goal to the Scored Goals pile, and discard all Keepers and/or Creepers required by the Goal.
- The game ends as soon as either deck runs out.
- Your score is the total number of Goals you collected.
